

Who needs the services of *Eldercare Made Simple* geriatric care consultants?

A crisis has occurred, typically health related, no one knows what to do, uncertain whom to contact, uncertain what services are available.

A loved one needs help and the primary support person lives too far away to provide assistance.

It is difficult to reach the physician and other professionals involved and you want to know what is happening.

You are concerned that a loved one is unable to continue live independently and would like to investigate available options.

Out of town relatives receive frequent pleas for help from their loved ones and don't know where to turn.

As an attorney, durable power of attorney, guardian, financial advisor or trust officer you're uncertain what is best for your client's situation and you need a professional assessment, care plan and recommendations.

The care management team of *Eldercare Made Simple* brings over two decades of experience in the health care arena, with a focus on caring for the aging population.

We are familiar with the needs of the elderly and the services available.

Our knowledge is second to none.

Michele Piskin Geriatric Care Consultant

We are at your side when you need it the most.
